WELCOME TO CALUMET COUNTY

Calumet County, Wisconsin is a small, rural community valued for its nature-based tourism assets and relaxing atmosphere. Situated on the east side of Lake Winnebago, we are an appealing destination to those looking for great fishing opportunities, shore-side camping, farm experiences, and a world to explore in our underground caves. With over 12,000 acres of public land for prairie hiking, hunting or bird watching, nature enthusiasts flock to our State Wildlife Areas.

When it comes to dining options in Calumet County, we have some of the finest supper clubs in the Midwestern United States. Respectfully donned the Supper Club Capital of the Midwest® , we attract a variety of culinary and conversational enthusiasts. Please take some time to visit, stay awhile, and experience one of these unique dining traditions.

Be sure to explore our park system. County parks include Calumet County Park, with camping on the Niagara Escarpment or shore-side next to Lake Winnebago, mountain bike and hiking trails, effigy mounds and a winter tubing hill; Becker Lake is a quiet park with a tranquil prairie; Ledge View Nature Center is best known for its caves, maple syrup and snowshoeing; and three of the best harbors providing access to Lake Winnebago fishing (Stockbridge, Brothertown and Calumet County Park). The Brillion Nature Center, nestled inside the Brillion Wildlife Area, has nearly seven miles of trails ideal for nature hikes. We also boast High Cliff State Park with its towering cliffs, lime kilns, trails, and campground.

20 MUST-DO'S IN 2020

A new decade is upon us so let's celebrate! Here are our 20 Must-Do's in Calumet County for 2020. The list is organized in seasonal order although some can be accomplished any time throughout the year.

1 | HAVE A TOTALLY TUBULAR TIME.

Take a relaxing ride up on the tow rope and a thrilling ride down at Calumet County Park's Tube Hill. When there is adequate snow, the hill is open on weekends and during winter break. Priced at only $6/person, it's a great deal for a day of frosty fun!

2 | FREEZE YOUR BUTT OFF.

Hit the trails at the Brillion Nature Center and give snowshoeing a try. Snowshoes are available to rent for $5/pair. A cold tush is well worth the fun of stomping through the snow on a beautiful winter day.

3 | DISCOVER PREHISTORIC FISH.

The lake sturgeon, an ancient fish dating back 100 million years, thrives in Lake Winnebago. The fishery is so good that there is a season to catch these large fish. Sturgeon Spearing Season is February 8-23 from 7am-1pm. The best way to see one up-close is at a registration station (Waverly Beach, Harbor Bar & Grill, Quinney Quencher) during opening weekend. Caught sturgeon must be registered by 2pm. Otherwise, head to Ledge View Nature Center and see their juvenile lake sturgeon tank.

4 | GET STICKY.

Things get a little sticky around these parts come March because it's maple syrup season! Join in the fun at Ledge View Nature Center's Maple Syrup Sunday on March 15 or Brillion Nature Center's Maple Syrup Camp on March 21.

5 | GO CLUBBING.

No...not the loud music, dancing kind of clubbing. The rural, small town, lots of yummy food type of clubbing. Calumet County is the Supper Club Capital of the Midwest®! There are 17 in the Calumet County area to choose from.

6 | CUDDLE BABY FARM ANIMALS.

Mulberry Lane Farm has all of the farm animals you can imagine. Best part, it's interactive so all of the cuteness is yours for the snuggling. Open May 1-October 31.

7 | CLIMB A TOWER.

Get a birds-eye view of the County's landscape by visiting the observation towers at Ledge View Nature Center and High Cliff State Park.

8 | BE ELECTRIFIED.

The Brillion Optimist Electric Parade is one of the few night parades around. All of the floats are covered front to back and top to bottom with lights. While the lights definitely brighten Brillion's Main Street, the smiles from the on-lookers seem to shine equally bright. The event happens on June 12 at 9pm.

9 | FEEL THE NEED FOR SPEED.

Gravity Park USA is a favorite for race lovers. Offering stock car, ATV and motocross races, the sound of the engines is sure to make your adrenalin soar. Free spectator admission for motocross and ATV races (weekends May-August). Admission rates do apply for stock car races (April-September).

10 | COOL OFF.

A great way to enjoy a beautiful summer day but yet stay cool is to experience the Sherwood Splash Pad at Wanick Choute Park. It's free to use and open Memorial Day-Labor Day weather permitting.

11 | SCREAM FOR ICE CREAM.

Warning - Once you eat ice cream from Scoops Ice Cream House no other ice cream will compare. It's made in-house with special cream that makes it extra delicious. There are 16 standard flavors and 8 rotating flavors plus a huge menu of ice cream concoctions to choose from.

12 | STAY THE NIGHT.

Try something new, like the cabins at Lakeview RV Park & Cabins. Book quick! With only four cabins available, they go quick!

13 | STEP UNDERGROUND.

Taking a tour of the natural, underground cave system at Ledge View Nature Center in summer is a great way to stay cool. It's cold and muddy in the caves so dress warm and wear clothes you are ok with ruining. Tours available most weekends May-November.

14 | PUT YOUR HEAD IN THE CLOUDS.

Head to the New Holstein Airport on Sunday, July 20 for Airport Day. Kids, ages 8-17, can go on a free airplane ride from 8am-Noon.

15 | TRY TAILGATING.

Tailgating is typically associated with a sporting event. In Calumet County, it's the best way to watch the movies at the Chilton Twilight Drive-In Theater. Just bring blankets and chairs, even snacks, or make it easy on yourself and have their homemade pizza delivered to your vehicle.

16 | BECOME PICKY.

Apple picking is one of the most iconic things to do in fall and the place to go is Heritage Orchard. This walkable orchard is lined with hearty trees and ladders to help pick the perfect bushel.

17 | GET LOST.

Are you up for the challenge of making it through the 15-acre corn maze at Polly's Pumpkin Patch? There are two mazes to choose from. One is geared toward the littles and one is geared toward the bigs. You can do one or both. It's up to you!

18 | RAMBLE ON THE ROCKS.

Experience the magnificent rocks of the Niagara Escarpment by hiking the Lime Kiln Trail at High Cliff State Park. Close access to the escarpment and trail is available via a staircase near campsite #38.

19 | BELLY UP TO THE BAR.

A legend amongst micro-breweries, Rowland's Calumet Brewing Company is an original. Stop by and meet the owners, mother and son team Bonita and Pat, and learn their story. If beer isn't your thing, chances are you'll leave with a growler of their root beer. It's just that good!

20 | CELEBRATE THE SEASON.

Make your season bright by experiencing a Timm House Christmas. Guests are invited to view the home's first floor as it's transformed for the holidays. The décor is based on a theme, which changes yearly. Open weekends between Thanksgiving and Christmas.

CAVES

LEDGE VIEW NATURE CENTER

W2348 Short Road, Chilton
(920)849-1471
www.ledgeviewnaturecenter.org

Carolyn's Caverns is a walk-through cave with the excitement of optional crawl passages. Bring a flashlight to explore the awesome world underground during the two-hour tour. With the depth of almost four stories, Dave's Sink is the deepest point in Carolyn's Caverns. The bowl-shaped ceiling shows the effect of swirling water pouring from a glacial-era underground waterfall. The cave had its origins back before the last glacial maximum, more than 18,000 years ago. Accessed via two stairs, a ladder, and through a metal door, the cave varies in temperature, from 32°F in winter, when it's closed to protect hibernating bats, to the high 50°F in July. Though a sleeping bat may be seen on spring and fall tours, summer wildlife in the cave is scarce.

Mothers Cave is for the most adventurous! It involves plenty of belly crawling,

with a ceiling height from 11 inches to a whopping 24 inches. This keeps a visitor down and dirty until the exit, a wiggle through the challenging "Squeeze." A little bit of rock climbing then brings the green world of the forest into view.

A cave tour is offered most weekends May through November, and many weekdays in summer. Call (920)849-1471 for tour dates/times and reservations. It's a cool place to be on a hot day!

ARTS AND CULTURE

It may be subtle but the arts and culture scene continues to grow in Calumet County. For example, in 2019, four murals were painted. In this section, you'll be introduced to local art pieces in the form of murals and barn quilts, live art available at our performing art centers and museums eager to share our story.

MURALS

BRILLION MURAL

Schroth Brillion Floral & Gifts
119 S. Main Street, Brillion

"Brillion Pride" was created in May 2019 through the event "Bazaar After Dark". The piece features a warm interaction between a lion (the local mascot) and butterfly. The flowers were intended to blend with the floral business on which it's painted, and at ground level, provide viewers with an opportunity to interact.

CHILTON HISTORICAL MURAL

Ditter's 40 West
40 W. Main Street, Chilton
www.calumetcountyhistoricalsociety.org/mural

The imagery in the Chilton mural spans 75 yrs. from 1840 through 1915 and is portrayed in a 'hand-tinted' image. This style of imagery was a popular technique of the era bringing color into the monochromatic imagery of the day. Sitting firmly on the Manitowoc, Chilton's matriarch, Catherine Stanton can be seen prominently positioned in front of the former State Street Bridge. Just beyond the ironclad bridge you can see a suggestion of a fading grist mill that the Stanton's erected and was fundamental in Chilton's early development during the time. Catherine is flanked on her right by members of a Ho-Chunk family, each of which has tribal beads and patterns embedded into their clothing. Catherine's image is a hybrid of two different photos of her and she adorns a working-class dress of the era. Mrs. Stanton is flanked on her left by both Civil War veterans Harrison Hobart and George Breeds. Both men were fundamental toward Chilton's continued growth and prosperity after their Civil War military service concluded. Former Hotel Chilton and St. Mary's parish stand as iconic backdrops for a section of the Chilton boy's homecoming from the Great War. On the far right of the wall, an architectural sketch of the Malt House sits directly above Breed's shoulder. The central visuals are different tributes toward agriculture; each has a different emphasis but are all centrally positioned in their importance. In these options, you will find two local women raking hay, and a group of farmers appear to be delighted by their new John Deere tractor. Lastly, the font used in 'Chilton' is pulled from a turn of the century advertisement and sits in the azure sky above the bridge. All photographic references used were locally based.
Painted by James Barany and student intern artists Emma Barany, Olivia Bonlander, Julien Roberson, Claresa Waight and Reagen Mulvey

CHILTON LIBRARY MURAL

AutoSource
61 E. Chestnut Street, Chilton
www.audifaxart.com/news

"Be Anything" shows a face split in two-one half being your average reader and the other a fantastical character accessed through the book she is reading. The meaning is: "Through books, movies and events from our local library, we are able to experience a different story and have aspects of our own lives reflected back to us. We can enter into the life of another in a way surpassing our own limits. Connecting with their inner strength to discover our own, as well as seeing parts of our lives that

may need attention & growth. You can also find subjects of interest and learn new things to take action towards your own dreams."

This mural was created for the Chilton Public Library's summer reading program- intended to not only spark wonder in those passing by, but also bring the community together by inviting teens to assist in its creation.
Painted by Audifax (Brandi Kupsky) with help from local teens.

STOCKBRIDGE HISTORICAL MURAL

Schumacher's Shanty
101 S. Military Road, Stockbridge
www.calumetcountyhistoricalsociety.org/mural

The imagery in the Stockbridge mural spans 85 yrs. from 1830 through 1915 and is portrayed in a 'hand-tinted' image. This style of imagery was a popular technique of the era bringing color into the monochromatic imagery of the day. In the foreground founders Reverend Cutting Marsh can be seen staunchly defending the infamous Stockbridge bible, just to his left is prominent Stockbridge tribe leader John Quinney. Both men fought hard to establish the rights of the Stockbridge-Munsee tribe and promote their transition into Western culture and Christian-based religion. John Quinney's sister, Electa Quinney can be easily found with a blue shawl as a central focus of the mural. Electa is well known as the first female educator in the State of Wisconsin and resided in Stockbridge for a great deal of her life.

The founding family of the Schumacher's Shanty, the George Hemauer family can be located once again, looking out over the porched area of the wall. Just below them a carte-de-visite portrait of Miriam Scott of Stockbridge, the sister of E.W. Scott, to the right a tin-type portrait of Ohio native, Isaac Wagner Acker who settled in Stockbridge, can be found in his work attire. Acker served in the 21st Wisconsin during the Civil War. At the time of his enlistment he gave his occupation as a mason, the tools with which he posed, represent that construction trade are visible. Acker was severely wounded at the battle of Champions III and in consequence of disability from his wounds was honorably discharged from service on March 4, 1862.

A local woman boasts her daily catch on a flat hull with her canine companion, and completing the foreground is a tribute to the local brickmaking industry that once flourished in Stockbridge on the shores of Lake Winnebago. The background begins on the left with a tribute to the well-known Native American Old Mission House. The Leander Choate, a local steamboat can be found departing the Stockbridge Harbor and local Menomonee fishing from a canoe, ready to throw his spear into the murky waters, paving the way for modern day Sturgeon spearing in the area. Another sturgeon fisherman boasts his prize. A tribute is given to the IOOF, International Order of Odd Fellows, who helped construct new buildings in the Stockbridge area during this era. The symbol of an "eye" in the upper section of the mission house is reference to the IOOF. All photographic references used were locally based.

ARTS AND CULTURE CONTINUED

The barn quilt, typically an 8 foot by 8 foot representation of a quilt square painted on plywood and hung on a barn, has made its way to the rural landscape of Calumet County. These pieces of art cause us to pause, take notice of the surrounding beauty and reflect on the cultural contribution that agriculture has made to the area. We invite you to drive our rural roads and visit our barn quilts.

These quilts were done through the Calumet County Barn Art Program, which utilizes community volunteers and donors. The program continues to grow so we hope you come back year after year to see the changes. Go to www.travelcalumet.com for a current list of locations. The locations of the barn quilts listed here are on the Calumet County Map on pages 18-19.

DINING

SUPPER CLUB CAPITAL OF THE MIDWEST®

Despite what the name implies, no memberships are needed at these dining establishments. A supper club is a dining experience like no other that includes a whole lot of food for not too much money. Your experience starts at the bar where the most popular drink ordered is the Old Fashioned. A typical meal may include a relish tray, bread, soup, salad, an entrée such as steak, chicken or fish and ice cream drinks for dessert. Most supper clubs are multi-generational family run businesses and feature recipes that have been around just as long. You can't be in a hurry though. The experience could take a couple of hours, especially if you go on a weekend. The Calumet County region has 17 supper clubs to choose from and is the Supper Club Capital of the Midwest®. It is unknown why there are so many in the area, but one theory is because the region was settled by men and women who worked hard in the farm fields and needed a 'night out' at the end of the week.

LAKE WINNEBAGO

STURGEON SPEARING

The year starts frozen with a quiet stillness, but that changes in February, especially on Lake Winnebago. Sturgeon spearing season starts Saturday, February 8, and continues until Sunday, February 23, if the limit has not been met. A community of ice shanties scatter across the frozen lake as hopeful spearers partake in this annual tradition of trying to land one of these prehistoric, mammoth-sized fish. Even if you don't have a license to spear (licenses needed by Oct. 31), you can still get in the spirit. Stop by one of the registration stations for a first-hand glimpse of these monsters.
