# WELCOME TO CALUMET COUNTY

Calumet County, Wisconsin is a small, rural community valued for its nature-based tourism assets and relaxing atmosphere. Situated on the east side of Lake Winnebago, we are an appealing destination to those looking for great fishing opportunities, shore-side camping, farm experiences, and a world to explore in our underground caves. With over 12,000 acres of public land for prairie hiking, hunting or bird watching, nature enthusiasts flock to our State Wildlife Areas.

When it comes to dining options in Calumet County, we have some of the finest supper clubs in the Midwestern United States. Respectfully donned the Supper Club Capital of the Midwest®, we attract a variety of culinary and conversational enthusiasts. Please take some time to visit, stay awhile, and experience one of these unique dining traditions.

Be sure to explore our park system. County parks include Calumet County Park, with camping on the Niagara Escarpment or shore-side next to Lake Winnebago, mountain bike and hiking trails, effigy mounds and a winter tubing hill; Becker Lake is a quiet park with a tranquil prairie; Ledge View Nature Center is best known for its caves, maple syrup and snowshoeing; and three of the best harbors providing access to Lake Winnebago fishing (Stockbridge, Brothertown and Calumet County Park). The Brillion Nature Center, nestled inside the Brillion Wildlife Area, has nearly seven miles of trails ideal for nature hikes. We also boast High Cliff State Park with its towering cliffs, lime kilns, trails, and campground.

## CAVES

### **LEDGE VIEW NATURE CENTER**

W2348 Short Road, Chilton

(920)849-1471

[www.ledgeviewnaturecenter.org](http://www.ledgeviewnaturecenter.org)

Carolyn's Caverns is a walk-through cave with the excitement of optional crawl passages. Bring a flashlight to explore the awesome world underground during the two-hour tour. With the depth of almost four stories, Dave's Sink is the deepest point in Carolyn's Caverns. The bowl-shaped ceiling shows the effect of swirling water pouring from a glacial-era underground waterfall. The cave had its origins back before the last glacial maximum, more than 18,000 years ago. Accessed via two stairs, a ladder, and through a metal door, the cave varies in temperature, from 32°F in winter, when it's closed to protect hibernating bats, to

the high 50°F in July. Though a sleeping bat may be seen on spring and fall tours, summer wildlife in the cave is scarce.

Mothers Cave is for the most adventurous! It involves plenty of belly crawling, with a ceiling height from 11 inches to a whopping 24 inches. This keeps a visitor down and dirty until the exit, a wiggle through the challenging "Squeeze." A little bit of rock climbing then brings the green world of the forest into view.

A cave tour is offered most weekends May through November, and many weekdays in summer. Call (920)849-1471 for tour dates/times and reservations. It's a cool place to be on a hot day!

## LAKE WINNEBAGO STURGEON SPEARING

The year starts frozen with a quiet stillness, but that changes in February, especially on Lake Winnebago. Sturgeon spearing season starts Saturday, February 13, and continues until Sunday, February 28, if the limit has not been met. A community of ice shanties scatter across the frozen lake as hopeful spearers partake in this annual tradition of trying to land one of these prehistoric, mammoth-sized fish. Even if you don't have a license to spear (licenses needed by Oct. 31), you can still get in the spirit. Stop by one of the registration stations for a first-hand glimpse of these monsters.

daily launch is \$6.00. 2021 Seasonal Boat Launch Permits are available at the Calumet County Park Office and the County Clerk's Office. The 2021 Seasonal Boat Launch Permit cost is \$35. This permit gives you access to Lake Winnebago from Brothertown Harbor, Calumet County Park Harbor and Stockbridge Harbor. Ask us about our \$50 Tri-County Launch Permit.

No long term docking is available. Each unit must register and pay docking fees in advance at the self-registration station. Each docking permit includes one electrical hook up per unit. Only one boat per slip is permitted. Boats staying overnight are permitted to park one vehicle overnight in the designated parking area. Reservations are not taken for the slips. A self-registering docking permit must be displayed at corresponding dock sites during entire stay whether the boat is docked or not. The maximum stay is three consecutive nights and then the boat must be gone for a minimum of three consecutive nights. Check out time is 11am.

# DINING

## SUPPER CLUB CAPITAL OF THE MIDWEST®

Despite what the name implies, no memberships are needed at these dining establishments. A supper club is a dining experience like no other that includes a whole lot of food for not too much money. Your experience starts at the bar where the most popular drink ordered is the Old Fashioned. A typical meal may include a relish tray, bread, soup, salad, an entrée such as steak, chicken or fish and ice cream drinks for dessert. Most supper clubs are multi-generational family run businesses and feature recipes that have been around just as long. You can't be in a hurry though. The experience could take a couple of hours, especially if you go on a weekend. The Calumet County region has 17 supper clubs to choose from and is the Supper Club Capital of the Midwest®. It is unknown why there are so many in the area, but one theory is because the region was settled by men and women who worked hard in the farm fields and needed a 'night out' at the end of the week.

# ARTS AND CULTURE

It may be subtle but the arts and culture scene continues to grow in Calumet County. For example, in 2019, four murals were painted. In this section, you'll be introduced to local art pieces in the form of murals and barn quilts, live art available at our performing art centers and museums eager to share our story.

Destinations are listed as if they are open for normal operation. However, Covid-19 may affect this. Please contact the destination to verify hours of operation, capacity limits and other practices being taken to ensure guest and worker safety.

## MURALS

### BRILLION MURAL

Schroth Brillion Floral & Gifts  
119 S. Main Street, Brillion

"Brillion Pride" was created in May 2019 through the event "Bazaar After Dark". The piece features a warm interaction between a lion (the local mascot) and butterfly. The flowers were intended to blend with the floral business on which it's painted, and at ground level, provide viewers with an opportunity to interact. Painted by Jodie Naze

### CHILTON HISTORICAL MURAL

Ditter's 40 West  
40 W. Main Street, Chilton  
[www.calumetcountyhistoricalsociety.org/mural](http://www.calumetcountyhistoricalsociety.org/mural)

The imagery in the Chilton mural spans 75 yrs. from 1840 through 1915 and is

portrayed in a 'hand-tinted' image. This style of imagery was a popular technique of the era bringing color into the monochromatic imagery of the day. Sitting firmly on the Manitowoc, Chilton's matriarch, Catherine Stanton can be seen prominently positioned in front of the former State Street Bridge. Just beyond the ironclad bridge you can see a suggestion of a fading grist mill that the Stanton's erected and was fundamental in Chilton's early development during the time. Catherine is flanked on her right by members of a Ho-Chunk family, each of which has tribal beads and patterns embedded into their clothing. Catherine's image is a hybrid of two different photos of her and she adorns a working-class dress of the era. Mrs. Stanton is flanked on her left by both Civil War veterans Harrison Hobart and George Breeds. Both men were fundamental toward Chilton's continued growth and prosperity after their Civil War military service concluded. Former Hotel Chilton and St. Mary's parish stand as iconic backdrops for a section of the Chilton boy's homecoming from the Great War. On the far right of the wall, an architectural sketch of the Malt House sits directly above Breed's shoulder. The central visuals are different

tributes toward agriculture; each has a different emphasis but are all centrally positioned in their importance. In these options, you will find two local women raking hay, and a group of farmers appear to be delighted by their new John Deere tractor. Lastly, the font used in 'Chilton' is pulled from a turn of the century advertisement and sits in the azure sky above the bridge. All photographic references used were locally based.

Painted by James Barany and student intern artists Emma Barany, Olivia Bonlander, Julien Roberson, Claesa Waight and Reagan Mulvey

### CHILTON LIBRARY MURAL

#### AutoSource

61 E. Chestnut Street, Chilton  
[www.audifaxart.com/news](http://www.audifaxart.com/news)

"Be Anything" shows a face split in two—one half being your average reader and the other a fantastical character accessed through the book she is reading. The meaning is: "Through books, movies and events from our local library, we are able to experience a different story and have aspects of our own lives reflected back to us. We can enter into the life of another in a way surpassing our own limits. Connecting with their inner strength to discover our own, as

well as seeing parts of our lives that may need attention & growth. You can also find subjects of interest and learn new things to take action towards your own dreams."

This mural was created for the Chilton Public Library's summer reading program- intended to not only spark wonder in those passing by, but also bring the community together by inviting teens to assist in its creation.

**Painted by Audifax (Brandi Kupsky) with help from local teens.**

## STOCKBRIDGE HISTORICAL MURAL

**Schumacher's Shanty**  
101 S. Military Road, Stockbridge  
[www.calumetcountyhistoricalsociety.org/mural](http://www.calumetcountyhistoricalsociety.org/mural)

The imagery in the Stockbridge mural spans 85 yrs. from 1830 through 1915 and is portrayed in a 'hand-tinted' image. This style of imagery was a popular technique of the era bringing color into the monochromatic imagery of the day. In the foreground founders Reverend Cutting Marsh can be seen staunchly defending the infamous Stockbridge bible, just to his left is prominent Stockbridge tribe leader John Quinney. Both men fought hard to establish the rights

of the Stockbridge-Munsee tribe and promote their transition into Western culture and Christian-based religion. John Quinney's sister, Electa Quinney can be easily found with a blue shawl as a central focus of the mural. Electa is well known as the first female educator in the State of Wisconsin and resided in Stockbridge for a great deal of her life.

The founding family of the Schumacher's Shanty, the George Hemauer family can be located once again, looking out over the porched area of the wall. Just below them a carte-de-visite portrait of Miriam Scott of Stockbridge, the sister of E.W. Scott, to the right a tin-type portrait of Ohio native, Isaac Wagner Acker who settled in Stockbridge, can be found in his work attire. Acker served in the 21st Wisconsin during the Civil War. At the time of his enlistment he gave his occupation as a mason, the tools with which he posed, represent that construction trade are visible. Acker was severely wounded at the battle of Champions III and in consequence of disability from his wounds was honorably discharged from service on March 4, 1862.

A local woman boasts her daily catch on a flat hull with her canine compan-

ion, and completing the foreground is a tribute to the local brickmaking industry that once flourished in Stockbridge on the shores of Lake Winnebago. The background begins on the left with a tribute to the well-known Native American Old Mission House. The Leander Choate, a local steamboat can be found departing the Stockbridge Harbor and local Menomonee fishing from a canoe, ready to throw his spear into the murky waters, paving the way for modern day Sturgeon spearing in the area. Another sturgeon fisherman boasts his prize. A tribute is given to the IOOF, International Order of Odd Fellows, who helped construct new buildings in the Stockbridge area during this era. The symbol of an "eye" in the upper section of the mission house is reference to the IOOF. All photographic references used were locally based.

# ARTS AND CULTURE CONTINUED

The barn quilt, typically an 8 foot by 8 foot representation of a quilt square painted on plywood and hung on a barn, has made its way to the rural landscape of Calumet County. These pieces of art cause us to pause, take notice of the surrounding beauty and reflect on the cultural contribution that agriculture has made to the area. We invite you to drive our rural roads and visit our barn quilts.

These quilts were done through the Calumet County Barn Art Program, which utilizes community volunteers and donors. The program continues to grow so we hope you come back year after year to see the changes. Go to [www.travelcalumet.com](http://www.travelcalumet.com) for a current list of locations. The locations of the barn quilts listed here are on the Calumet County Map on pages 18-19.
